Appendix A — Every bill in the set

One row per bill found by the public-education search, 2020–2026. ‘Tier’ marks how central the bill is: core (K-12 education policy), adjacent (touches the issue), or context (found by the keywords but not a K-12 education bill; kept for audit and excluded from headline counts). Results come from official dockets and chaptered texts; Appendix E has each bill’s path.

Appendix B — Theme scorecards and history baskets

Each theme's track record, with its history basket: what similar ideas did before. Baskets describe the record; they are not advice. Counts cover the 894-bill policy set.

SCHOOL FUNDING: ADEQUACY, SWEPT, AND THE EDUCATION TRUST FUND

*84 bills · 9 became law · basket: **Rarely moved before** · certainty: high*

The hardest ground in the record: 84 policy bills, 9 laws - and every structural rewrite died. Full state funding of adequacy (HB678 2020; HB1799 2026, killed 185-159), SWEPT repeal or replacement (HB649 2023; HB527, HB669 2025), excess-SWEPT remittance (HB1686 2024; HB137 2025; HB675 2025, which passed one House vote 190-185 before dying), and the foundation opportunity budget (HB1680 2022, HB1586 2024, HB772 2026 - interim study every time) all failed. What passed came through budget trailers (\$4,100 base and extraordinary need in 2023; fiscal capacity disparity aid in 2025) plus two standalone laws: SB420 (2022), which created extraordinary need grants, and HB1815 (2026), the biennium's education financing law, passed 188-162 and 16-8. The ConVal litigation shadows all of it; the legislature answered with a declaration of authority (HB2 2025, 141:389), and the bills to repeal that declaration (HB1456) or ask the justices for guidance (HR28) died in 2026.

Examples: 2020 HB1492, 2020 HB1691, 2020 HB184, 2020 HB551, 2020 HB678, 2020 HB686

SPECIAL EDUCATION: SERVICES, COSTS, AND RIGHTS

*64 bills · 30 became law · basket: **Often moved before** · certainty: high*

The record's quiet success story: 30 of 64 policy bills became law, the highest rate of any big theme. Rights and process laws passed steadily - burden of proof on districts (HB581 2021), the advocate's office (SB381 2022), services to age 22 (SB394 2022), ADR (SB135 2023; HB532 2025), expedited hearings (HB753 2025), complaint tracking (HB76 2025), parent communication (SB340 2024). The COST side moved late: the 2023 trailer set the 3.5x catastrophic threshold, the 2025 trailer ordered an independent program audit, SB292 (2025) and HB1563 (2026) rewrote the aid formula - and SB57 (2025) created exactly what the Community Conversations proposed, a commission to study special education costs. The bills that died were the money bills: catastrophic-aid raises (HB717 2025, HB773 2026), higher per-pupil amounts (SB584 2026, killed 16-8), and cost-data publication (HB1548, interim study).

Examples: 2020 HB1232, 2020 HB1473, 2020 HB1636, 2020 HB1686, 2020 HB1687, 2020 HB1698

SCHOOL CHOICE: EFAS, CHARTER SCHOOLS, TUITIONING, AND OPEN ENROLLMENT

*146 bills · 28 became law · basket: **Often moved before** · certainty: high*

The busiest theme (146 policy bills) and the majority's signature project. Education freedom accounts arrived inside the 2021 trailer after the standalone bills stalled, survived two repeal attempts in 2022 (HB1683, killed 189-166; SB432, 14-9), and went universal when SB295 (2025) removed the income cap - while HB115, the House version, was vetoed over an unrelated amendment and its override abandoned 1-347. Open enrollment broke through in 2025: intra-district transfers (SB97), open-enrollment funding (HB771), contracting with any approved nonpublic school (HB768), then cross-district course access (HB1817, 2026). What keeps dying is oversight of the choice programs: EFA academic accountability (HB1716, killed 194-166), assessment data (HB1610 2024), reporting (HB1513, HB1578, SB576), administration transfers to the department (five tries), and provider review - none has passed.

Examples: 2020 HB1282, 2020 HB1321, 2020 HB1328, 2020 HB1423, 2020 SB481, 2020 SB747

TESTING, ACCOUNTABILITY, AND MEASURES OF STUDENT SUCCESS

43 bills · 9 became law · basket: **Mixed** · certainty: high

The grid's 'better measures' proposal has been legislated at the edges, never at the core. What passed narrows or reorganizes the existing regime: HB1160 (2024) limited statewide assessments to academic areas, SB266 (2024) consolidated assessment administration, the 2023 trailer repealed third-grade reading accountability data, HB1066 (2024) repealed the FAFSA graduation requirement - and SB378 (2024) created the performance-based accountability task force, the one direct move toward different measures. The civics competency assessment (HB320, 2021) is the period's only new required measure. Alternatives died: proficiency-based aid (HB1675 2024), testing exceptions (HB399 2023), proficiency-exam attendance waivers (HB1402 2024, interim study), graduation-requirement rewrites (HB1692 2024; HB1183 2026), assessment-score incentive grants (2022, 2023, 2025), and the standards-review commissions (HB371 2023; HB1571 2026, tabled in the Senate).

Examples: 2020 HB1323, 2020 HB1336, 2020 HB1369, 2020 HB1412, 2020 HB1432, 2020 HB1454

CURRICULUM, INSTRUCTION, AND CLASSROOM CONTENT

99 bills · 17 became law · basket: **Mixed** · certainty: high

Two very different threads share this theme. Skills mandates pass: cursive and multiplication tables (HB170 2023), elementary literacy development (HB1015 2024), dyslexia screening (HB377 2023), civics instruction (HB1367 2022; SB216 2023), health/PE/finance-literacy studies (HB1263 2022), the adequate-education content rewrite (HB1671 2022). The content-control fights mostly die outside the budget: the divisive-concepts ban rode the 2021 trailer (91:298) after HB544 was tabled, and every later version - repeal (HB1576, SB298 2022), amendment (HB1090 2022; HB61 2023; HB1162 2024), intent requirements (HB50 2025), rewrite (SB100 2025; HB1792 2026) - failed; the school-materials bills failed five ways (HB1419 killed; SB523 dead on a 187-193 division; HB1311 and SB33 dead between the chambers; HB324 and SB434 vetoed); and the one content law enacted without the trailer was the World Economic Forum materials ban (HB1448, 2026), which became law without the Governor's signature.

Examples: 2020 HB1148, 2020 HB1306, 2020 HB1334, 2020 HB1470, 2020 HB1501, 2020 HB1635

TEACHERS AND SCHOOL STAFF: CERTIFICATION, PAY, AND BACKGROUND CHECKS

65 bills · 29 became law · basket: **Mixed** · certainty: high

Background checks and credential discipline pass almost every year: teaching-credential checks (HB1234 2022), assault/drug disqualifications (HB1311 2022), substitute checks (SB352 2022), revoked-educator bans (SB136 2023), renewal checks (HB1795 2026), universal personnel checks (HB1827 2026), plus the educator code of ethics' new responsibility to parents (HB235 2025). Recruitment moved once the trailer led: the 2023 trailer's educator recruitment program was followed by the rural and underserved area incentive law (HB1079, 2024). What never passed is pay and pipeline support as policy: the teacher salary floor (SB219 2023), loan forgiveness (HB623 2023-24), new-teacher induction (HB1608 2024), and the teacher bill of rights (HB1669 2026) all died or sit in interim study.

Examples: 2020 HB1136, 2020 HB1219, 2020 HB1520, 2020 HB1715, 2020 HB251, 2020 HB723

SCHOOL GOVERNANCE: BOARDS, DISTRICTS, BUDGETS, AND CONSOLIDATION

107 bills · 27 became law · basket: **Often moved before** · certainty: high

A live front that moved hard in 2025-2026, mostly toward state and voter control of district spending: education department intervention in financially distressed districts (HB1816), monitoring reports to school boards (HB1514), independent audits (SB586), SAU budget adoption (HB564), the school-district tax cap ballot questions (HB1300), and budget-ballot information (HB557). On consolidation the legislature studies but does not mandate: SB57 (2025) and SB574 (2026) created SAU-structure studies, while mandatory SAU consolidation died twice (HB765 2025, on a unanimous 18-0 committee report; HB1804 2026, interim study) and the separation bills advanced - cooperative withdrawal procedures (HB530 2023; HB1374 2026), Derry's absorption of its district (HB1331 2026), and unilateral-withdrawal study (HB1644 2026).

Examples: 2020 HB1105, 2020 HB1206, 2020 HB1327, 2020 HB1368, 2020 HB1435, 2020 HB447

STUDENTS: DISCIPLINE, SAFETY, HEALTH, MEALS, AND WELLBEING

145 bills · 30 became law · basket: **Mixed** · certainty: high

The widest theme (145 policy bills). Safety and health infrastructure passes: school safety coordination (SB109 2023), bullying rewrites (HB108 2025; HB131 2026), seclusion elimination (SB179 2023), trauma kits (SB429 2026), emergency map databases (HB1503 2026), sports-injury plans (HB763 2025). School meals split by design: meal-shaming and meal-debt bills died for five years (HB1127 2020 through HB703 2025, killed 202-173) until HB143 (2025) made districts provide meals during school hours with reimbursement - but every eligibility expansion (HB1212, HB572 2024; SB205 2025; HB665 2026, killed 189-158; SB204, killed 183-161) failed. The culture-war student bills split: the women's-sports law passed (HB1205 2024, 189-182 and 13-10), the mask-policy ban passed on its second try (HB361 2025), and the gender-procedures law carried school provisions (HB619 2024).

Examples: 2020 HB1127, 2020 HB1163, 2020 HB1251, 2020 HB1285, 2020 HB1335, 2020 HB1337

SCHOOL BUILDINGS, FACILITIES, AND TRANSPORTATION

49 bills · 13 became law · basket: **Got support but didn't finish** · certainty: medium

School building aid keeps almost passing: the facility condition assessment became law (HB365 2023) and charter eligibility for building aid became law (HB354 2024), but the money and process bills died - appropriations (HB176 2020; HB541 2023-24), nonlapsing funds (HB295 2026), priority rewrites (HB1104, HB366 2026), and the owner's-project-manager requirement, which passed both chambers in different forms twice (SB209 2025; SB513 2026) and then rode HB1565 (2026) into a veto. Water safety advanced (lead limits, HB1421 2022; filling stations, SB233 2022, HB466 2023); the electric-bus pilot and most transportation-cost bills did not.

Examples: 2020 HB1118, 2020 HB1463, 2020 HB1527, 2020 HB176, 2020 HB626, 2020 HB716

CAREER AND TECHNICAL EDUCATION AND WORKFORCE PATHWAYS

25 bills · 17 became law · basket: **Often moved before** · certainty: high

The record's highest hit rate: 17 of 25 policy bills became law. Dual and concurrent enrollment grew in 2021 and 2023 trailers and standalone laws (SB421 2022; HB193 2025; HB1202 2026); CTE transportation was funded (HB364 2023, plus the trailer's \$4 million incentive grants); regional CTE agreements were rewritten (SB99 2025, House 206-167); alternate CTE-instructor certification passed (HB354 2025); construction-funding planning advanced (SB441 2024); and SB491 (2026) let education freedom account funds pay for CTE. The stalled edge is money at scale: the 2026 dual-enrollment appropriation died (HB716), as did CTE lab fees (SB294) and the hospitality-education study (SB37 2023) - though the trailer carried a version of that study anyway.

Examples: 2020 HB1182, 2020 HB1185, 2020 HB1344, 2020 SB435, 2020 SB557, 2021 HB261

PARENTAL RIGHTS, TRANSPARENCY, AND SCHOOL INFORMATION

53 bills · 12 became law · basket: **Got support but didn't finish** · certainty: high

Five years of near misses, then a breakthrough biennium. The parental bill of rights failed in 2022 (HB1431, dead between the chambers), 2023 (HB10 tabled; SB272 indefinitely postponed 195-190), and twice more in 2025 (SB72, SB96) - and then HB10 (2025) became law (Chapter 74), followed by mandatory school-employee disclosure to parents (SB430 2026, after SB341's 2024 version was postponed 185-176), parental notification of health matters and curricula (HB1312 2024, passed the House 186-185), medical-transport consent (HB231 2025), and school financial transparency laws (HB1265 2024; HB1514, SB586 2026). The constitutional versions (CACR17, CACR25 2024; CACR24 2026) and the curriculum-posting mandates (HB1434 2022; HB1643 2024) still died, and two notification bills were vetoed (HB446 2025; HB1267 2026).

Examples: 2020 HB1231, 2020 HB1329, 2020 HB1459, 2022 HB1169, 2022 HB1195, 2022 HB1244

TECHNOLOGY IN SCHOOLS: DEVICES, DATA PRIVACY, AND ONLINE LEARNING

14 bills · 3 became law · basket: **Got support but didn't finish** · certainty: medium

The smallest theme (14 policy bills) - and the one where the budget trailer did the only decisive work. The statewide cell-phone policy mandate passed inside HB2 2025 (141:455) after BOTH standalone vehicles failed: HB781 was vetoed (override abandoned 28-322) and SB206 died in a conference committee. The 2026 adjustment bills (HB1055 state-board rulemaking; HB1129 laptop exceptions) died too. Around devices, almost nothing passes: the online tutoring appropriation died at the Senate deadline (SB117 2025), screen-time and recess bills died (SB578 2026, in conference; HB1507 2026), media-literacy study was tabled (HB1087 2024), the student-data bill died in conference (HB1695 2024), and the educational-technology right to repair died (HB1071 2024). The laws are narrow: social-media credential limits (SB213 2023), Summer EBT data sharing (HB1727 2026), and the unique pupil ID system (HB1626 2022).

Examples: 2022 HB1113, 2022 HB1626, 2022 SB235, 2023 SB213, 2024 HB1071, 2024 HB1087

Appendix C — Roll-call votes and support

Every floor roll call recorded for policy bills in the set, from the official General Court vote database. NH decides most bills by voice vote, so a bill with no row here still had floor action. Party splits show yes–no within each party where the roster records one (‘?’ = party not on record). Votes on HB2 (Appendix H) are on the whole budget trailer.

Appendix D — Sponsors and people

Sponsors come from the official database (2025–2026, with party labels) and the OpenStates bulk sponsorship files (2020–2024); where the bulk files carry no prime flag, the first-listed sponsor is treated as prime (New Hampshire lists the prime sponsor first). Party labels exist only on the 2025–2026 layer. No judgment of any legislator is implied — these are counts of who filed what.

Appendix F — What this data can and cannot say

Plain-language limits of the collected record. Anyone quoting the brief should know these.

Bill discovery is certified complete for the issue vocabulary: 2020-2024 was collected from the OpenStates bulk CSVs, a full mirror of the official docket (5,467 bills), and every bill in those five sessions was additionally swept with a wide-net tax/revenue vocabulary; all matches were either included or individually reviewed and categorized as out of scope (certification-report.json). 2025-2026 comes complete from the official state database. A tax bill could be absent only if its title avoids the entire wide-net vocabulary.

Bills that span a biennium (e.g. filed 2023, decided 2024) appear once per year in the annual files; first-year records are marked carryover duplicates and counted once.

Sponsor names exist for nearly every bill (SQL for 2025-2026, OpenStates bulk sponsorship files for 2020-2024); party labels exist only on the 2025-2026 layer, so cross-party counts understate the true number.

NH kills most bills by voice vote or on the consent calendar; a bill with no roll call is not necessarily uncontroversial.

Committee votes appear only where a committee report recorded them (e.g. 'Vote 12-7; RC' in the docket); there is no complete committee-vote table.

Roll-call party splits use the legislators table; a few older ballots have no party on record (shown as '?').

HB2 votes are on the whole budget trailer; they are never attributable to a single tax or revenue section.

The three HB2 bill records themselves (2021, 2023, 2025) are kept in the collected set as context so the trailer's sections (analyzed in Appendix H) are not double-counted in bill totals.

The full machine-readable record — bills, votes, ballots, dockets, HB2 sections, and per-claim evidence — lives in the repository under [sources/new-hampshire/public-education/](#) and [working/new-hampshire/public-education/](#).

Appendix G — Bill-by-bill grid: sponsors, chamber votes, governor

One row per bill: year, number, subject, prime sponsor, each chamber's decisive floor vote, and the Governor's action. New Hampshire decides most bills by voice or division vote, which record no tallies — those cells say so rather than invent numbers ('—' means the bill never reached that chamber). Every recorded roll call, with party splits, is in Appendix C; where each bill ended is in Appendix E. Prime sponsors for 2020–2024 come from the OpenStates sponsor files; where those files carry no prime flag, the first-listed sponsor is shown (New Hampshire lists the prime sponsor first).

Appendix H — Inside the budget trailer (HB2)

New Hampshire makes much of its education law inside HB2, the omnibus policy bill that accompanies each two-year budget. Every extracted section of the last three trailers was screened against the education terms and hand-reviewed; this appendix lists the sections kept (three rate sections the term matcher missed were added by hand and flagged in the working files). **All votes on HB2 are on the whole trailer, never on one section.**

HB2 2021 — LAWS OF 2021, CHAPTER 91

468 sections; 30 education-relevant after review. Final passage (whole bill): Senate 14–10 (2021-06-24); House 198–181 (2021-06-24).

Section	What it does	Weight
91:50	Let the department of education accept private gifts and grants for department purposes with Governor and Council approval for the biennium.	adjacent
91:51	Let districts use their higher pre-pandemic or pandemic-year enrollment count for fiscal 2022 aid, so pandemic enrollment drops would not cut adequacy grants.	core
91:52	Kept free-and-reduced-meal counts (and the aid tied to them) from collapsing in fiscal 2023 if pandemic conditions continued - a conditional hold-harmless for differentiated aid.	core
91:53	Created relief funding (RSA 198:40-e): an extra \$600 per free-and-reduced-price-meal pupil in districts where at least 48 percent of pupils qualify, layered onto adequacy aid for the poorest districts.	core
91:54	Let a school district call a special meeting to decide how to budget any adjustment in its education aid.	adjacent
91:55	Moved \$35 million of education trust fund surplus into a restricted account to pay the new relief funding in fiscal years 2022 and 2023.	core
91:58	Directed the education department to certify compliance with the federal ARPA 'maintenance of equity' rule protecting high-poverty districts' shares of state aid.	adjacent
91:59	Appropriated \$3 million from the education trust fund for a statewide student data collection and reporting system - the state's education-data infrastructure.	adjacent
91:60	Rewrote what the education trust fund may pay for - adequacy grants, the homeowners' property tax relief program, and the new education freedom accounts among them.	adjacent
91:61	Transferred \$1 million a year from the education trust fund to the public school infrastructure fund in each year of the biennium.	adjacent
91:62	Rewrote the public school infrastructure fund statute (RSA 198:15-y) - the school security and infrastructure account funded by state surpluses.	adjacent

Section	What it does	Weight
91:63	Repealed the scheduled sunset of the public school infrastructure fund, making the fund permanent.	adjacent
91:96	Conforming change to the education tax credit scholarship statute for the interest-and-dividends repeal: individuals' I&D-tax credits for scholarship-organization donations end with the tax in 2027 (later 2025).	adjacent
91:97	Companion conforming change to the scholarship-organization award rules for the same repeal.	adjacent
91:112	Rewrote the meals and rooms tax distribution, fixing the education trust fund's share of that revenue while creating the municipal revenue fund (the tax mechanics live in the property-taxes packet).	adjacent
91:297	The companion civil-rights half of the teaching ban: a new 'right to freedom from discrimination in public workplaces and education' under the human rights commission (RSA 354-A:29 and following), giving the banned-concepts rule an enforcement path including teacher-license discipline.	core
91:298	The 'divisive concepts' teaching ban as enacted: no public school pupil shall be taught or compelled to express belief in a list of concepts about the superiority or inferiority of any group (new RSA 193:40) - the classroom-content restriction later struck down in part by a federal court and repealed in the 2025 trailer's DEI rewrite's shadow.	core
91:311	Rewrote the dual and concurrent enrollment program (RSA 188-E:25-29): high school students earn community-college credit in STEM and career courses with the state paying tuition - the main high-school-to-career bridge program.	core
91:313	Extended annual school building aid lease grants to more kinds of district lease arrangements, including space leased from other districts and municipalities.	adjacent
91:314	Required the department of education to maintain a 10-year school facilities plan ranking potential school building aid projects.	adjacent
91:315	Made full-day kindergarten adequacy grants a standing charge on the education trust fund every year, ending the keno-revenue-dependent formula.	core
91:316	Appropriated \$1.9 million to top up fiscal 2021 kindergarten and adequacy grant payments.	adjacent
91:318	Rewrote how vacancies on cooperative and area school planning committees and school boards are filled - district governance mechanics.	adjacent

Section	What it does	Weight
91:320	Appropriated \$30 million from the education trust fund for school building aid on new projects - the first new-project money after a decade-long moratorium era.	core
91:322	Cut the statewide education property tax (SWEPT) for fiscal year 2023: the rate is set to raise \$263 million instead of the usual \$363 million target - a one-year, \$100 million cut in the local school tax the state counts as its aid.	core
91:323	Guaranteed no municipality's total education grant would fall because of the SWEPT cut: the state makes up any decrease with a supplemental payment.	core
91:398	Folded the department of education into the children's mental health system of care plan - schools as a delivery point for children's behavioral health.	adjacent
91:425	Let the Medicaid-to-schools program accept extra federal money mid-biennium with fiscal committee approval - the funding stream for school-based health services.	adjacent
91:431	Created the education freedom account (EFA) program (new RSA 194-F): state adequacy money follows a student out of public school to private, religious, or home education expenses, paid from the education trust fund through a scholarship organization - the biggest school-choice change of the period.	core
91:432	Amended the compulsory-attendance statute so participation in the EFA program satisfies a child's school-attendance duty - the conforming change that makes the program legal schooling.	core

HB2 2023 — LAWS OF 2023, CHAPTER 79

612 sections; 43 education-relevant after review. Final passage (whole bill): House 326–53 (2023-06-08).

Section	What it does	Weight
79:3	Extended the dual and concurrent enrollment program to career and technical education center students in grades 10 through 12.	core
79:4	Doubled the funded dual/concurrent enrollment courses per student (from 2 to 4 in each of grades 10, 11, and 12).	core
79:45	Repealed the advanced manufacturing education advisory council and partnership statutes (RSA 188-E:21-24) - a CTE-adjacent program taken off the books.	adjacent
79:62	Created the commission on New Hampshire civics inside the department of education - the body charged with building the state's civics-education program.	core
79:63	Appropriated \$1 million to the civics commission, including a New Hampshire civics textbook project.	adjacent
79:65	Created an educator recruitment program: stipends and grants for academic residencies and alternative certification pathways, aimed at the teacher shortage.	core
79:66	Let discretionary federal ARPA/ESSER money fund the educator recruitment stipends.	adjacent
79:79	Created a computer science and STEM administrator position in the department of education.	adjacent
79:80	Created the computer science educator program (new RSA 200-O): tuition-reimbursement incentives for teachers earning computer science credentials - the trailer's main classroom-technology investment.	core
79:81	Appropriated \$500,000 for computer science professional development credentials for certified educators.	adjacent
79:83	Put \$10 million from the education trust fund into the public school infrastructure fund for school construction and safety projects.	adjacent
79:137	Reduced the education trust fund appropriation earmarked for education freedom accounts by \$10 million in each year of the biennium, an accounting true-up to actual enrollment.	adjacent
79:138	Re-enacted the education trust fund statute, restating everything the fund may pay for - adequacy grants, homeowners' property tax relief, EFAs, court-ordered placements, and school building aid among them.	adjacent
79:139	Defined 'episode of treatment' placements for children placed by DHHS in facilities - the definition the special-education payment sections hang on.	adjacent

Section	What it does	Weight
79:141	Changed special education state aid so districts are reimbursed for costs above 3.5 times the state average per-pupil cost - the 'catastrophic aid' threshold that decides when the state steps in.	core
79:142	Gave the state board of education rulemaking authority for paying episode-of-treatment costs.	adjacent
79:143	Shifted liability for certain court-ordered placements of children with disabilities, defining when the state rather than the school district pays.	core
79:144	Appropriated \$9.2 million from the education trust fund for court-ordered placement costs.	adjacent
79:146	Rewrote the career and technical education renovation-funding statute the CTE center projects run through.	adjacent
79:147	Appropriated \$12.5 million from the education trust fund for the Sugar River Valley career and technical education renovation project.	adjacent
79:148	Appropriated \$7.6 million from the education trust fund for the Winnisquam regional CTE renovation project.	adjacent
79:150	Rewrote the cost of an adequate education (RSA 198:40-a): base per-pupil aid rises to \$4,100 with larger add-ons for free-and-reduced-lunch pupils, special education, and English learners - the formula rewrite the whole 2023 education budget turned on.	core
79:151	Re-enacted the annual adjustment: adequacy aid amounts rise 2 percent automatically every year starting July 2024.	core
79:153	Rewrote extraordinary need grants for 2023 - extra aid scaled to a town's equalized property value per pupil, targeting the towns with the weakest tax bases.	core
79:154	Set the 2025-and-after version of extraordinary need grants, extending the property-poor-town aid formula.	core
79:156	Rewrote how each municipality's total education grant is determined, including hold-harmless rules so no town's grant falls below prior levels while the new formula phases in.	core
79:157	Raised chartered public school per-pupil funding: adequacy amounts plus an additional grant, with the amount indexed going forward - the charter funding statute's biggest rewrite of the period.	core
79:158	Repealed the third-grade reading accountability data requirement from the statewide assessment statute (RSA 193-C) - a piece of the testing regime removed.	core
79:159	Amended the 2021 maintenance-of-equity provision so any such aid distributes as an education grant to districts and charter schools.	adjacent

Section	What it does	Weight
79:191	Fixed the education trust fund's share of the business profits tax at 41 percent of revenue - replacing the old 'increase attributable to' formula with a straight statutory split.	core
79:192	Fixed the education trust fund's share of the business enterprise tax at 41 percent of revenue, the same straight split.	core
79:201	Extended the Medicaid-to-schools supplemental-funding authority through the 2025 biennium.	adjacent
79:264	Appropriated \$315,700 from the education trust fund for new full-day kindergarten adequacy grants.	adjacent
79:383	Appropriated \$150,000 to contract with the National Student Clearinghouse to track every district's graduates into college and careers - an outcomes-measurement investment.	adjacent
79:385	Required annual reporting on the math learning communities program partnering community colleges with high schools.	adjacent
79:386	Appropriated \$200,000 a year to continue the math learning communities program.	adjacent
79:439	Charged a study committee with examining how expanded free-and-reduced-price-meal eligibility (SNAP categorical eligibility, Medicaid data) changes the pupil counts that drive state education aid.	adjacent
79:468	Created a commission to study hospitality and tourism education - the industry-pathways study that also arrived as a standalone bill (SB37).	adjacent
79:601	Appropriated \$500,000 for grants to adult education programs - the second-chance diploma track.	adjacent
79:605	Created the career and technical education incentive grant to pay transportation costs that keep sending-district students out of regional CTE centers.	core
79:606	Appropriated \$4 million for the CTE transportation incentive grant program.	adjacent
79:609	Findings on children's mental health: schools named as the daily front line of the behavioral-health crisis.	adjacent
79:610	Appropriated \$900,000 for the multi-tiered system of supports for behavior (MTSS-B) framework in schools.	adjacent

HB2 2025 — LAWS OF 2025, CHAPTER 141

461 sections; 32 education-relevant after review. Final passage (whole bill): Senate 16–8 (2025-06-26); House 184–183 (2025-06-26).

Section	What it does	Weight
141:16	Made the education freedom account expansion's effective date contingent on program participation certification - the mechanics attached to 2025's removal of the EFA income cap (2025, 75) that opened the program to every family.	core
141:17	Let an EFA student leave the program and re-enroll in public school on notice to the scholarship organization - exit mechanics for the expanded program.	adjacent
141:79	Amended the education trust fund's purpose list, including how court-ordered placement costs are paid.	adjacent
141:80	Capped the education trust fund's balance: any surplus over \$20 million at the close of a biennium is swept into the general fund - money that once stayed dedicated to schools.	core
141:81	Rewrote the chartered public school tuition payment schedule (30/40/30 percent installments on enrollment counts).	adjacent
141:82	Set special payment rules for the Virtual Learning Academy Charter School based on estimated full-time enrollment.	adjacent
141:83	Moved the final determination of education grants to October 1 and guaranteed each municipality at least 95 percent of its estimated grant.	adjacent
141:132	Cut the education trust fund's share of the business profits tax from 41 percent to 39 percent, keeping more business tax revenue in the general fund.	core
141:133	Cut the education trust fund's share of the business enterprise tax from 41 percent to 39 percent.	core
141:134	Rewrote the tobacco tax split: 39 percent of tobacco revenue to the education trust fund, the rest to the general fund.	adjacent
141:135	Rewrote the real estate transfer tax split: 39 percent to the education trust fund, the rest to the general fund.	adjacent
141:223	Delayed the annual 2 percent inflation adjustment of per-pupil adequacy aid to July 2026 - a pause in the automatic growth of state school aid.	core
141:224	Re-enacted the extraordinary need grant formula - the extra aid tied to a town's equalized property value per pupil.	core
141:225	Created fiscal capacity disparity aid: up to \$1,250 extra per pupil for municipalities with less than \$1 million of equalized property value per pupil, phasing out by \$1.6 million - aid aimed squarely at property-poor towns.	core

Section	What it does	Weight
141:226	Rewrote how each municipality's education grant is computed to fold in the new fiscal capacity disparity aid.	core
141:228	Rewrote the required civics instruction statute (RSA 189:11): the locally developed civics competency assessment and the naturalization-test requirement for graduation - the testing piece of the civics program.	core
141:229	Extended the 2023 computer science professional-development appropriations' availability.	adjacent
141:274	Let the public school infrastructure commission approve fund expenditures without fiscal committee sign-off.	adjacent
141:275	Ordered an independent, nationally recognized audit of the state's special education program approval and monitoring system - the oversight response to exploding special-education costs.	core
141:276	Restructured special education state aid administration and reimbursement - the catastrophic-cost aid that shields local budgets.	core
141:278	Rewrote the funding rule for statewide special education programs.	core
141:302	Let unused EFA funds roll over quarter-to-quarter and year-to-year until withdrawal or graduation.	adjacent
141:307	Added a statewide termination trigger to the Medicaid-to-schools program if federal or state policy conflicts with parental control of children's medical services.	adjacent
141:321	The statewide companion: the same DEI prohibition applied to every state agency and political subdivision (new RSA 21-I:112 and following), which reaches school districts as public employers.	core
141:322	Prohibited diversity, equity, and inclusion programs in public schools (new RSA 186:71 and following): no DEI offices, officers, trainings, or DEI-based hiring or contracting in schools, with enforcement through the department of education - the 2025 trailer's biggest education-policy section.	core
141:389	Declared the legislature's position on the Claremont school-funding rulings - asserting that defining and funding an adequate education is the legislature's prerogative - while the ConVal litigation over adequacy amounts and the SWEPT remains in the courts.	core
141:398	Restated the adult education program statute as the adult high school education program for residents 16 and older.	adjacent
141:399	Appropriated \$400,000 a year from the education trust fund for adult high school education programs.	adjacent

Section	What it does	Weight
141:400	Narrowed the student-privacy statute's protected 'workforce information' definition (RSA 189:68) - part of the student-data layer.	adjacent
141:401	Made the education and revenue departments jointly maintain school accounting standards - the books behind local school budgets and tax rates.	adjacent
141:403	Appropriated \$1.5 million a year from the education trust fund for statewide student learning platforms - the state's classroom-technology line.	adjacent
141:455	Required every school board and charter school to adopt a policy governing student cell phones and other personal electronic devices in school - the statewide 'bell-to-bell' phone-policy mandate, with exceptions for IEPs, 504 plans, and medical needs.	core

COMPLETENESS CERTIFICATION (2020–2024 AND 2025–2026)

The five OpenStates bulk session archives are complete mirrors of the official docket: 5,467 bills. [working/.../certify-universe.py](#) verified that (1) every collected 2020–2024 bill exists in that universe, (2) no bill in the set is missing votes the mirror knows about (the one bulk-vote/SQL mismatch is 2022 HB1670’s table motion — a division vote, MA DV 188–163 in the official docket, which the SQL roll-call table does not carry by design), and (3) every one of the 5,467 titles was swept with a 48-pattern wide-net education vocabulary far broader than the issue’s search terms — bare school/educat stems, students, teachers, testing, choice, CTE, sports, and library-materials vocabulary. All 291 wide-net matches not already in the set were reviewed by hand: 138 were added (tagged [supplement:universe-certification](#)) and 153 were excluded with per-bill categories (higher education, driver training, child care, public libraries, occupational licensing, housing, and similar) recorded in [working/.../certification-report.json](#) and summarized in [certification-report.md](#). A 2020–2024 K-12 education bill could be absent from this record only if its title avoids that entire vocabulary.

The same net was then applied to the complete current biennium ([certify-current-biennium.py](#)): all 2,234 bills in the official SQL legislation table for 2025–2026 were swept, 49 real misses were added (tagged [supplement:universe-certification-current](#) — including the education financing bills HB1815 and SB659, whose titles carry none of the seed vocabulary), and 77 candidates were excluded with categories in [certification-current.json](#) / [certification-current.md](#). One docket-mirror gap is documented: 2024 HB1378 has only its introduction row in every official mirror (GenCourt’s own archived docket for that LSR returns a server error); its resolution — withdrawn after introduction — is hand-researched and cited in [manual-resolutions.json](#).

COLLECTION AND REVIEW NOTES

Votes come exclusively from the state’s [rollcallsummary](#) table; where the brief cites a division or committee tally, it is quoted from the official docket text and labeled as such (three instances, whitelisted in [scan-lege-brief.py](#) with their docket citations). Dispositions are docket-derived for all 1,049 bills, zero unresolved; seven manual resolutions carry citations ([manual-resolutions.json](#)).

Biennium carryovers (72 first-year records) are counted once, in their decision year, after verifying terminal actions in the first-year docket.

HB2 votes are on the whole trailer and are never attributed to a section.

The automated review gates: [scan-lege-brief.py](#) (advice language, cited bills, vote pairs) and [fact-check-reality-map.py](#) (every reality-map claim against the evidence pack) — both PASS on the shipped revision.
